

ABIALI DOCTOR

Surat, India 395001 | 8200995014 | abialidctr@gmail.com

Summary

I am a versatile developer with four years of experience in JavaScript, specializing in both front-end and back-end development. My expertise extends to creating dynamic and interactive web applications, ensuring robust and efficient solutions.

Skills

- HTML5 and CSS3
- Javascript And Typescript
- Reactjs And Nextjs
- Redux, Redux toolkit and RTK query
- Bootstrap, Mui, Tailwind
- Node.js, Expressjs, Nestjs
- MongoDB And Sequelize
- Aws EC2 & Aws S3
- Git And Github

Experience

Frontend Developer (Contract Based)

11/2023 to 01/2024

Avantica Inovotations

I had the opportunity to work with Avantica Innovations on a dynamic and challenging project that spanned a 2-month contract. The project involved creating a web application from scratch using cutting-edge technologies, and my role was pivotal in ensuring its success.

Key Achievements:

- **Project Initiation and Development:** Spearheaded the development of a Next.js project, starting from the ground up. Responsible for architecting and implementing a robust and scalable codebase.
- **Code Quality and Reusability:** Focused on writing clean and reusable code with minimal dependencies. Employed best practices to ensure the maintainability and extensibility of the codebase.
- **Integration of Designs and APIs:** Collaborated with design teams using Figma to translate designs into code seamlessly. Integrated APIs from the provided backend, ensuring smooth communication between the frontend and backend systems.
- **Component Development:** Designed and implemented reusable components, contributing to the overall efficiency and consistency of the project.
- **Decision-making and Optimization:** Played a key role in decision-making processes related to API integration and project optimization. Shared valuable insights and recommendations to enhance project performance.

Technology Stack:

- React.js
- Next.js
- TypeScript
- JavaScript
- JSX
- HTML
- CSS
- Modular CSS
- Redux
- Redux Toolkit
- RTK Query
- Git and GitHub

This experience not only honed my technical skills but also allowed me to contribute meaningfully to the project's success. It showcased my ability to work collaboratively, make informed decisions, and deliver high-quality results within the constraints of a short-term contract.

Senior Full Stack Developer (Contract Based)

05/2023 to 10/2023

Wedcell

Surat, India

As a pivotal member of the Wedcell team, I undertook a challenging 6-month contract as a Frontend and Backend Developer, contributing significantly to the development of websites and applications catering to the wedding industry.

Key Contributions:

- **Frontend Development:** Translated Figma design concepts into captivating frontend interfaces, meticulously implementing HTML, CSS, and JavaScript to ensure pixel-perfect designs and a seamless user experience.
- **Functionality Integration:** Enhanced user interactivity and responsiveness by incorporating essential functionalities into the designs.
- **API Integration:** Seamlessly connected frontend and backend components through API integration, facilitating smooth data flow and real-time interactions.
- **Backend Services:** Developed robust backend services and APIs responsible for data storage, user authentication, and application logic.
- **Database Management:** Oversaw database management, ensuring data integrity, and optimizing database performance.
- **Third-Party API Integration:** Successfully integrated third-party APIs, including S3, Razorpay, and WhatsApp, expanding application capabilities and enhancing user convenience.
- **Hosting and QA Testing:** Managed daily hosting on EC2 instances for quality assurance testing, ensuring optimal performance and reliability.
- **Server Management:** Deployed new servers on EC2 instances for testing purposes and seamlessly incorporated them into the load balancer for efficient resource utilization.
- **Collaboration:** Engaged in daily meetings with the CEO to discuss project progress, future development strategies, and the implementation of new features.

Contract-Based Dynamic Experience:

This 6-month contract equipped me with the agility and adaptability required in dynamic project environments. It not only sharpened my technical skills but also honed my ability to collaborate effectively within a team setting. My commitment to delivering high-quality web solutions tailored to the unique requirements of the wedding industry was consistently reinforced throughout this contract.

Junior Full Stack Developer (Full Time Based)

08/2022 to 05/2023

Globalia Soft

Surat, India

As a Web Developer at Globalia Soft, I played a pivotal role in the company's service-oriented approach to web development. Working in a dynamic environment with numerous clients and diverse projects, my responsibilities included:

- **Adapted to Clients:** Quickly understood and met each client's unique needs by learning and applying specific technologies relevant to their projects.
- **Designed Frontends:** Created visually appealing, user-friendly website designs that provided seamless and engaging user experiences.
- **Enhanced Functionality:** Added new features to websites, improving existing ones to make websites more useful.
- **Met with Clients:** Actively engaged with clients to gather project requirements, provide updates, and address concerns for successful project outcomes.
- **Integrated APIs:** Seamlessly integrated various APIs into web applications, enhancing functionality and data exchange.
- **Developed Backends:** Built robust APIs to support website operations, including database design and server-side scripting.
- **Handled Cloud Hosting (AWS):** Deployed and managed web applications on Amazon Web Services (AWS), ensuring optimal performance, security, and scalability.

My time at Globalia Soft enhanced my ability to blend technical expertise with adaptability, efficiently meeting client needs. I'm committed to delivering quality work on time and quickly learning new skills, making me an asset in web development.

Intern and Junior Developer (Full Time Based)

08/2020 to 07/2022

Lucky IT Services

Surat, India

- *Lucky IT Services: Specializing in web development, excelling on freelancing platforms, and delivering diverse projects.*
- As a Frontend Web Developer Intern at DigitalWeb Solutions, I immersed myself in the world of web development, gaining hands-on experience in HTML, CSS, JavaScript, React.js, and other frontend technologies. My primary role was to transform design concepts from Figma into fully functional websites, focusing on aesthetics, responsiveness, and user interactivity.
- Throughout the internship, I achieved the following
- **Mastered Fundamentals:** I solidified my knowledge of HTML and CSS for structuring and styling web content. I also honed my JavaScript skills to create interactive web elements.
- **React.js Proficiency:** I contributed to the development of web applications using React.js, enhancing user experiences through dynamic components.
- **Design-to-Code Workflow:** Collaborating closely with the design team, I converted Figma design

mockups into pixel-perfect web pages, ensuring fidelity to the original vision.

- **Responsive Design:** I developed expertise in creating responsive web designs, guaranteeing optimal user experiences across various devices.
- **Problem Solving:** I acquired problem-solving skills to troubleshoot issues and find efficient solutions for high-quality web applications.

Education and Training

Frontend And Backend Development

Self Education

Gujarat

- My primary source of education in this subject comes from it. I have learned everything primarily through official technological documentation, YouTube, and other resources like Udemy and blog websites

Bachelor of Computer Application: Software Development

03/2021

Veer Narmad South Gujarat University

Gujarat

- My primary education during this time period concentrated on creating computer software and websites using javascript, php and visual studio
