Summary

I am a versatile developer with 3.5 years of experience in JavaScript, specializing in both front-end and back-end development. My expertise extends to creating dynamic and interactive web applications, ensuring robust and efficient solutions.

Skills

- HTML5 and CSS3
- Javascript And Typescript
- Reactjs And Nextjs
- Redux, Redux toolkit and RTK query
- Bootstrap, Mui, Tailwind

- Node.js, Expressjs, Nestjs
- MongoDB And Sequelize
- Aws EC2 & Aws S3
- Git And Github

Experience

Frontend Developer (Remote:Contract)   **11/2023 to 01/2024**
Avantica Inovotations

Joined Avantica Innovations for a 2-month contract as a Mid Senior Full Stack Developer, contributing to a project initiated from scratch. The role demanded extensive expertise in front-end and back-end development to build a robust and scalable application.

Responsibilities:

Front-End Development:

- Developed reusable and clean code with minimal dependencies in a Next.js project.
- Translated designs from Figma into functional components, ensuring a seamless user experience.
- Integrated APIs from the backend and crafted reusable components for efficient development.

Collaborative Decision-Making:

- Contributed to decision-making processes regarding API integration strategies and project optimization.
- Shared experiences as a developer to guide the team towards optimal solutions.

Back-End Development:

- Integrated the database with the backend, creating models, routes, and controllers for a suitable REST API.
- Implemented S3 bucket integration using multer-s3 for efficient file handling.
  Optimized APIs to enhance overall system performance.

Technology Stacks:

- **Front-End:** React.js, Next.js, TypeScript, JavaScript, JSX, HTML, CSS, Modular CSS, Redux, Redux Toolkit, RTK Query, GitHub.
- **Back-End:** Node.js, Express, MongoDB.
- **Additional Tools:** Multer-S3, CORS, JWT, Agaro etc.

Achievements:

- Successfully contributed to the completion of the project within the stipulated timeframe.
- Ensured high code quality and maintainability through the use of best practices.
- Collaborated effectively with cross-functional teams to drive successful project outcomes.

This experience at Avantica Innovations honed my skills in rapid development, collaborative decision-making, and the application of a diverse tech stack in a real-world project environment. The experience has further solidified my capabilities as a Mid Senior Full Stack Developer, ready to take on new challenges and contribute

effectively to dynamic development projects.

Senior Full Stack Developer (Remote:Contract)   **05/2023 to 10/2023**
Wedcell Pvt Ltd   **Surat, India**

As a pivotal member of the Wedcell team, I undertook a challenging 6-month contract as a Frontend and Backend Developer, contributing significantly to the development of websites and applications catering to the wedding industry.

Responsibilities:

Front-End Development:

- Translated Figma design concepts into captivating frontend interfaces, meticulously implementing HTML, CSS, and JavaScript to ensure pixel-perfect designs and a seamless user experience.
- Enhanced user interactivity and responsiveness by incorporating essential functionalities into the designs.
- Seamlessly connected frontend and backend components through API integration, facilitating smooth data flow and real-time interactions.
- Successfully integrated third-party APIs, including S3, Razorpay, and WhatsApp, expanding application capabilities and enhancing user convenience.

Back-End Development:

- Developed robust backend services and APIs responsible for data storage, user authentication, and application logic.
- Oversaw database management, ensuring data integrity, and optimizing database performance.
- Managed daily hosting on EC2 instances for quality assurance testing, ensuring optimal performance and reliability.
- Deployed new servers on EC2 instances for testing purposes and seamlessly incorporated them into the load balancer for efficient resource utilization.

Collaborative Decision-Making:

- Engaged in daily meetings with the CEO to discuss project progress, future development strategies, and the implementation of new features.

Technology Stacks:

- **Front-End:** React.js, Next.js, JavaScript, JSX, HTML, CSS, Modular CSS, Redux, Redux Toolkit, RTK Query, GitHub.
- **Back-End:** Node.js, Express, MongoDB, CORS, Multer-S3, JWT,Node-mailer.
- **Additional Tools:** razorpay, Socket.io

Achievements:

- Executed Frontend and Backend tasks, delivering diverse, pixel-perfect web solutions for weddings.
- Improved user experience with responsive design, API integration, and third-party functionalities.
- Contributed to daily CEO meetings, aligning on progress, strategies, and feature implementations.

This 6-month contract equipped me with the agility and adaptability required in dynamic project environments. It not only sharpened my technical skills but also honed my ability to collaborate effectively within a team setting. My commitment to delivering high-quality web solutions tailored to the unique requirements of the wedding industry was consistently reinforced throughout this contract.

Junior Full Stack Developer (Onsite:Full Time)   **08/2022 to 05/2023**
Globalia Soft   **Surat, India**

As a Web Developer at Globalia Soft, I played a pivotal role in the company's service-oriented approach to web development. Working in a dynamic environment with numerous clients and diverse projects, my responsibilities included:

- **Adapted to Clients:** Quickly understood and met each client's unique needs by learning and applying specific technologies relevant to their projects.
- **Designed Frontends:** Created visually appealing, user-friendly website designs that provided seamless and engaging user experiences.
- **Enhanced Functionality:** Added new features to websites, improving existing ones to make websites more useful.

- **Met with Clients:** Actively engaged with clients to gather project requirements, provide updates, and address concerns for successful project outcomes.
- **Integrated APIs:** Seamlessly integrated various APIs into web applications, enhancing functionality and data exchange.
- **Developed Backends:** Built robust APIs to support website operations, including database design and server-side scripting.
- **Handled Cloud Hosting (AWS):** Deployed and managed web applications on Amazon Web Services (AWS), ensuring optimal performance, security, and scalability.

My time at Globalia Soft enhanced my ability to blend technical expertise with adaptability, efficiently meeting client needs. I'm committed to delivering quality work on time and quickly learning new skills, making me an asset in web development.

Intern and Junior Developer (Onsite:Full Time)   08/2020 to 07/2022
Lucky IT Services   Surat, India

Lucky IT Services: Specializing in web development, excelling on freelancing platforms, and delivering diverse projects.

As a Frontend Web Developer Intern at *Lucky IT Services*, I immersed myself in the world of web development, gaining hands-on experience in HTML, CSS, JavaScript, React.js, and other frontend technologies. My primary role was to transform design concepts from Figma into fully functional websites, focusing on aesthetics, responsiveness, and user interactivity.

Throughout the internship, I achieved the following

- **Mastered Fundamentals:** I solidified my knowledge of HTML and CSS for structuring and styling web content. I also honed my JavaScript skills to create interactive web elements.
- **React.js Proficiency:** I contributed to the development of web applications using React.js, enhancing user experiences through dynamic components.
- **Design-to-Code Workflow:** Collaborating closely with the design team, I converted Figma design mockups into pixel-perfect web pages, ensuring fidelity to the original vision.
- **Responsive Design:** I developed expertise in creating responsive web designs, guaranteeing optimal user experiences across various devices.
- **Problem Solving:** I acquired problem-solving skills to troubleshoot issues and find efficient solutions for high-quality web applications.
